2015

DELICIOUS, CRUNCHY, MELTING

For you, **TWO GOURMET, CRUNCHY, MELTING & JUICY APPLES**

REGALYOU COV

**Resistant
to apple
scab**

TIME OF RIPENING:

End of September.

FRUIT:

Attractive appearance, round and very regular shape, slightly flat. Calyx end semi-closed, stalk cavity normal without or with slight russetting. Colour: shiny red 80% to 90% covering over a lighter red background. Smooth, bright skin. Uniform sizes 75-85.

FLAVOR:

In contrast to the FUJI type varieties, the fruit are much more attractive, with a more balanced and pleasant flavour. The white flesh is very crunchy (and melting) - it cannot be crunchy and melting... at same time ?, sweet and very aromatic that delivers an unparalleled customer experience.

STORAGE ABILITY:

In ambient conditions (18°C-20°C), REGALYOU cov has shown a very good ability for storage during more than two months and the variety has a long cold storage potential.

REGALSTAR COV

TIME OF RIPENING:

Beginning of October.

FRUIT:

Good attractive appearance; 90% shiny red over an orange / red background.

FLAVOR:

Exceptional quality with non fibrous or woolly flesh, very crunchy, melting, very sweet and very aromatic.

STORAGE ABILITY:

Excellent storage potential. Storage trials show that this variety can be stored more than two months without loss of quality.

APPRECIATION:

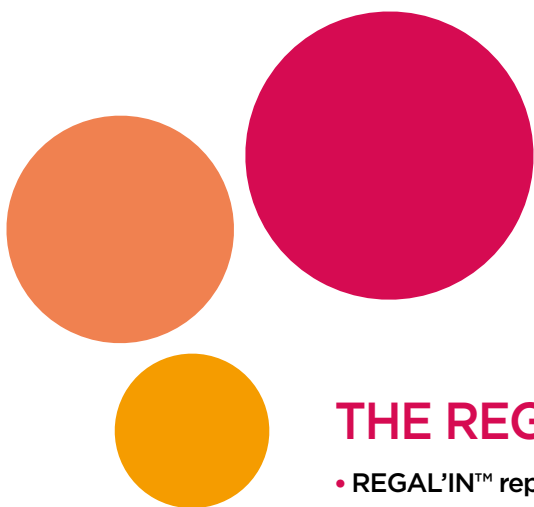

This variety does not appear to be affected by natural aggressors including powdery mildew or aphids. No particular sensitivity to scab.

THE REGAL'IN™ CONCEPT

- REGAL'IN™ represents a range of different fruit types and varieties including yellow and white flesh peaches and nectarines, apricots, cherries and apples covering the whole season, from the earliest varieties to the latest.
- **Unique fruit types that are recognizable:**
 - Characteristic semi-sweet and aromatic flavour. Acidity levels remain practically constant, even after long periods of storage, ensuring consistent good taste and flavour.
 - Very colorful and attractive.
 - High-performance varieties with uniform harvest window-periods (+/- 10 harvest days in two picks), long shelf-life without loss of quality (very good general performance and good inherent storage ability).
- REGAL'IN™ includes the most complete range of flat fruit (peaches and nectarines) on the market. Attractive fruit that meets the latest consumer expectations: ideal for eating on the go and constant market presence guaranteed.
